

In some instances employees refused to leave, and the bombs were thrown without any further utterances.

In the Spanish branch eight persons were injured, one of whom will lose his eye. Four persons were arrested here. A reign of terror exists, as other business houses have been threatened, and the public has little confidence in the power of the police to prevent further acts of violence.

Upholds Lower Court.
(By Associated Press.)
SAGINAW, MICH., July 24.—The State Supreme Court, at Lansing, has handed down a decision affirming the judgment of Circuit Court Judge B. L. Beach, of this county, who refused last September to recognize the decree of a Chicago, Ill., Circuit Court, granting a divorce to Edward E. Hewes, against his wife, Mrs. Hewes.

Previously the court here had granted Mrs. Hewes a similar decree on the ground of extreme cruelty, but on Hewes' representation that he wished to contest the case on its merits, it was reopened. In the meantime Hewes secured the Chicago decree. The Supreme Court upholds the Saginaw decision in every point.

Burning Hull Sighted.
(By Associated Press.)
NEW YORK, July 24.—A burning hull of an abandoned iron vessel was sighted about 900 miles east of Sandy Hook light on July 21st by the Austrian steamer *Francisco*, which arrived here to-day from Trieste and Palermo.

All of the decks, spar and rigging on the vessel had been destroyed by the flames. There was nothing about the craft to reveal its identity. It is regarded as possible that the derelict is that of the Norwegian bark *Undal*, which was abandoned and set on fire July 20th, the crew of the *Undal* having been rescued and brought to this port by the American liner steamer *New York*.

A BLOODLESS GIRL

Miss Hathaway Says Dr. Williams' Pink Pills Saved Her Life, and She Recommends Them.

Doctors have given the Greek name *Anemia*, meaning "bloodlessness," to a disease which is much more prevalent among young women than is generally believed. An unusual feeling of fatigue after slight exercise, breathlessness and pallor are the first noticeable signs. The disease literally causes the blood to turn to water, and unless a proper remedy is used, it is inevitably fatal.

Miss Frankie Hathaway, of 211 West Main Street, Kalamazoo, Mich., says: "When I was sixteen years old I was taken quite ill, so ill that the family doctor was called to attend me. I was pale and weak, and did not gain under his care. Other treatment brought no better result, and by the time I was nineteen years old I was so weak that I could not walk across the floor. I was terribly emaciated and my skin had lost all color. The doctor said I had anemia. One of my friends advised me to try Dr. Williams' Pink Pills, as she had been cured of a somewhat similar trouble by their use. I bought a package, and soon found that they were doing me good. My appetite increased, and the healthy color began to show in my cheeks and lips. I continued to use the pills until I was permanently cured. Dr. Williams' Pink Pills saved my life."

Dr. Williams' Pink Pills do not act on the bowels, but they actually make new blood. Most common diseases are caused by lack of blood, and supplying the elements necessary to give new life and richness to the blood they have cured even such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuritis, rheumatism, nervous headaches, and many forms of weakness in male and female. Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents a box, six boxes \$2.50, by Dr. Williams' Medicine Co., Schenectady, N. Y.

German Immigrants Tell Tale of Cruelty in Alabama Lumber Camp.

(By Associated Press.)
PENSACOLA, FLA., July 24.—Peonage in its worst form is charged against the officers of the Jackson Lumber Company at Lockhart, Ala., and United States deputy marshal armed with warrants for their arrest left here to-day for that place. If the allegations are true, about one hundred immigrants, mostly Germans, are held in the lumber camps of that company virtually as slaves. A party of Germans reached here to-day from the camp, stating that they had escaped. They went to the German vice-consul for protection, and told him a tale of ill treatment and cruelty that has hardly a parallel in the South. They allege that they are compelled to eat after the American fashion, if nothing was left they got nothing to eat. If they attempted to leave and were caught they were severely beaten.

Chicago Wants Taxes.

(By Associated Press.)
CHICAGO, ILL., July 24.—Corporation Counsel James Hamilton Lewis charges the managers of the estate of the late Marshall Field removed to New York stocks and bonds valued at \$2,633,000, for the purpose of removing them from the jurisdiction of the local taxing body.

It is asserted by Mr. Lewis that the Field property has been transferred to New York within the last fifty or sixty days, and that it is taxable in Chicago, as the estate is being administered there by the local courts.

William G. Neal, counsel for the Field estate, claims that the stocks and bonds in New York are not assessable in Chicago.

STAMP FRAUD ROBBED STATE OF \$200,000

NEW YORK, July 24.—Charged with selling mortgage tax stamps and stock transfer tax stamps that had already been used, five men were arrested this afternoon on complaint of the State Comptroller, Attorney-General Mayer and District Attorney Jerome. The men, all of whom were arrested in Wall Street, are Frederick Thompson, a clerk, fifty-three years old; William O'Reilly, twenty-one; Patrick King, sixteen; C. H. Lawrence, twenty-three, and Luke McSherry, a retired fireman, all of Brooklyn.

It is alleged that marks were removed by the use of chemicals, after which the stamps were ironed.

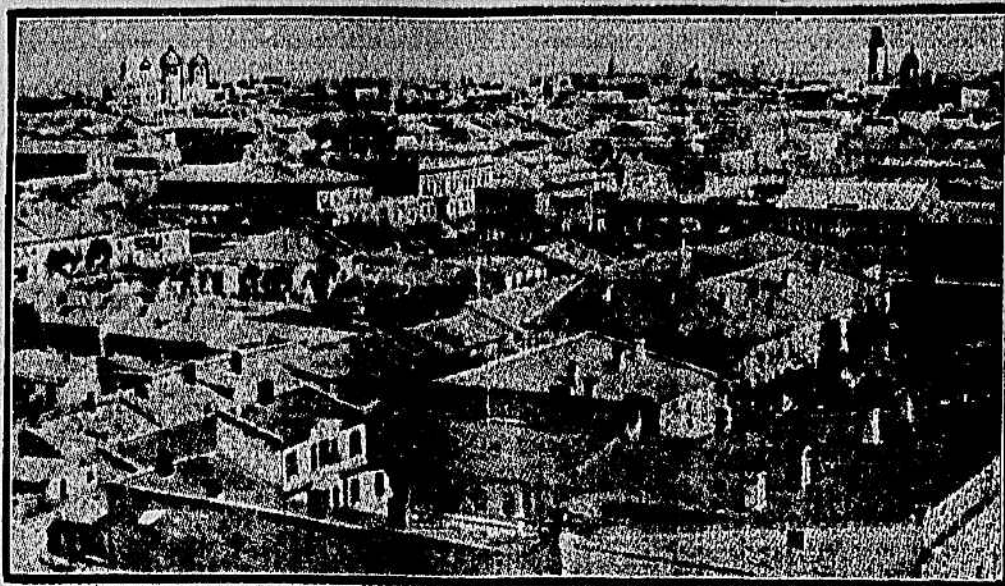

SHOULDER GUN WILL THROW LIFE LINE OUT

(By Associated Press.)
WASHINGTON, D. C., July 24.—Regulations of the steamboat inspection service have been amended in some particulars, most of the amendments being purely administrative. The regulations just promulgated provide, however, that the masters of passenger barges shall have to take out hereafter a license from the government.

Another of the corrections provides for the use in life-saving work of a life-saving shoulder gun, which will throw a line about 300 feet. This is to be used in some instances in place of the cannon.

TRAIN PLUNGED INTO LAKE; 9 DEAD

Locomotive and Three Cars Rolled Down Embankment and Were Submerged.

MANY PASSENGERS INJURED

Wreck Due to Reckless Running at High Speed Through Tunnel.

(By Associated Press.)
SPOKANE, WASHINGTON STATE, July 24.—At least nine lives were lost, seven persons were seriously injured, and a score of others sustained cuts and bruises in a wreck of the fast mail train on the Great Northern, a mile and a quarter east of Camden, Washington, ninety-five miles east of Spokane, late yesterday, when the locomotive, mail, baggage and smoking cars left the rails and plunged over the seventy-foot embankment, and were submerged in the waters of Richmond Lake. The dead: Edward Munson, engineer, Hillyard, Washington.

Frank Bell, fireman, Hillyard, Washington. Charles Duner, mail clerk, Spokane. George R. Strickland, express messenger. George Howard Curtice, Spokane. Dolbow, Spokane. Unidentified man.

Car Caught Afire.

Immediately after the smoker struck the water there was a blinding flash, which spread over the part of the car not submerged, and a fire followed. The flames were extinguished by the passengers and the train crew.

W. S. Nimmman, a contractor for construction work on the Oregon Railroad and Navigation Company, broke through a window and escaped from the burning, half-submerged smoker. Mr. Nimmman said: "We were coming at a fearful speed through that tunnel, and we passengers were all wondering if the engineer had lost his head, driving at that rate of speed, with a sharp curve ahead. I think we must surely have been going forty-five miles an hour."

Only two bodies, those of George H. Curtice and Dolbow, both of Spokane, have been recovered. The engine is believed to be about sixty or seventy feet under water, and the bodies of Engineer Munson and Fireman Bell may not be recovered for days. It is thought the mail and baggage cars, with the bodies of Mail Clerk Duner and Baggage Messenger Strickland, may be recovered before night. The bodies are reported to be progressing favorably.

KODAMA, WAR GENIUS OF JAPAN, IS DEAD

Chief of Staff for Oyama, He Planned Campaign Against Russians—Never Lost a Battle.

(By Associated Press.)
TOKIO, July 24.—General Baron Kodama died here Sunday.

General Kodama was educated at Rutgers College, and has been called the "Genius of the Japanese Army." He was Field Marshal Oyama's chief-of-staff during the Russo-Japanese war, and later was appointed Governor of Formosa. After the retirement of Field Marshal Oyama, Kodama was made chief of the general staff of the Japanese army. His wife, Sotomatsu Yamakawa, was educated at Vassar.

Born in the province of Choshu, Kodama was just sixteen years old when Japan threw off her feudal claims. The members of his family were the first to adopt the rifle and tactics of the West. A rebellion in 1874 found him a captain in the new army. He was sent into the

rebel district. In ten days the rebellion was over. In one battle Kodama was shot through both arms, but he continued to lead his men until the enemy was put to rout. During the war with China he was Minister of War, and it was he who planned the campaign.

Kodama saw the encroachments of the Russians in Manchuria, and several years before war was declared he began to make preparations for hostilities. It was his plan to lead the army of the Mikado up to its wonderful state of perfection.

When the war did come, Kodama went to the front. He was at the battle of the Yalu, and in subsequent engagements he planned the movements of the Japanese army. As chief of staff with Oyama, the brilliant officer took charge of the vast amount of detail, and with such rare strategic skill he handled the fighting forces that not one battle was lost by him.

Assistant Attorney Garvan, of New York City, were guests at a dinner given to-night by Colonel John T. McGraw, of Virginia, later leaving for New York. Showed a statement by Dr. Hamilton to the effect that Harry Thaw is insane, Mr. Jerome said:

"This is probably another one of the extremely numerous cases in which Dr. Hamilton will be afforded an opportunity to revise his opinion."
